juice to cut down on your
freezer space. Freezer space
is need for other Items used
in the Continental Breakfast
area.*

The path of becoming Ohio's largest coffee company began in Cincinnati, in 1909. Today Wallingford Coffee Mills, Inc. sells and distributes coffee in more than 35 states. It employs over 85 highly specialized employees as well as a far greater number of distributors. We are a young and vibrant team who shares in an employee stock ownership plan.

Wallingford sees its role as a coffee specialist. What makes Wallingford unique is our focus and specialization in coffee. Coffee is the only business we are in: we have an 92-year heritage in the industry and a steadfast commitment to the future of the coffee industry.

Our commitment to coffee is manifest in our service: from blending an exotic blend of coffee to planning and executing a service program. To meet our goal of providing an exceptional cup of coffee and providing the best service possible to our clients' requirements and needs, employees and future managers participate in continuous education programs. This on-going enrichment ensures the continuity of our philosophy for years to come.

Consistent coffee and reliable customer service is a hallmark of Wallingford Coffee Mills, Inc. Ultimately, our primary concern is for the benefit of our client and the consumer, and we maintain the utmost respect for their opinion. We are totally dedicated to meeting their expectations, delivering quality coffee, maneuvering the volatility of the future markets to insure stable pricing, technical expertise and timely service.

Evolving lifestyle changes are transforming the way people consume coffee. Wallingford is sensitive to these changes and is at the forefront of the industry

in developing solutions to improving product quality for our clients. Wallingford's institutional, office coffee, retail and private label divisions maintain a proactive concern for our clients.

Our secret of first class coffee is dedication to the product, stringent quality control and outstanding service. We are proud of our heritage and we like to think our philosophy will never go out of style.

Eliminate the mess, waste and refrigeration expense of frozen concentrate and hand-mixed alternatives.

Juice Tyme® gives you the fresh taste and premium quality your patrons demand, with the space-saving convenience of a concentrate, but without all the hassle associated with the alternatives.

- Juice Tyme® concentrate stores anywhere for up to 90 days. No refrigeration required.
- No need to allow time for thawing frozen concentrate. Juice Tyme® is ready when you need it.
- No waste. Use only as much delicious Juice Tyme® juice as you need.

Fresh, Fruitful and Fast.

If you serve a high volume of juice, in a wide variety of flavors, and want fresh taste, speed, cleanliness, efficiency and profitability, then the Juice Tyme® premium bag-in-box juice concentrate system is your best choice.

- Preparation time, space and storage are all minimized to yield the lowest cost-per-ounce possible.
- Ideal sanitation is assured because juice is never exposed to human contact, or even to air, until it is dispensed.

- All products are made to order and shipped for fresh taste and maximum shelf life.
- Juice Tyme® concentrates are suitable for counter top or gun-type dispensing systems. Complete dispensing systems are available from your Juice Tyme® distributor.

Quality and consistency are always our top priority.

The success of juice in today's beverage market depends on fresh taste, quality and nutritional value. With the Juice tyme premium bag-in-box juice concentrate system, you also get the convenience and cost-effectiveness of a non-refrigerated concentrate. Juice tyme gives you a beverage system that is easy and profitable, without sacrificing quality.

Discover a better, hassle-free way to serve delicious juice every day. Discover the Juice Tyme premium bag-in-box juice concentrate system.

Our Vision: To be a GMP quality and Team oriented manufacturer and supplier of chemicals to the markets we serve, developing enduring partnerships with key customers and long term, rewarding career relationships with talented and dedicated teammates.

Our Mission: To be a leading supplier with permanent, value added relationships to the following customers and markets:

KEY CUSTOMERS & MARKETS	
	Sanitary Maintenance and Foodservice Distributors
	OEM's selling companion chemical products
	Contract Packaging, including FDA products
	Critical cleaning in Industrial Mfg, Beverage, Food & Medical Products

Intercon manufactures a complete line of industrial, institutional and professional cleaning and maintenance chemical products and product delivery systems. We market to end users through our network of Distributors and OEMs (original equipment manufacturers). Intercon operates under the QSR of 21 CFR 820 with strict adherence to GMP and FDA requirements.

We serve Distributors, OEMs and their Customers in the cleaning, sanitary maintenance, industrial, foodservice,

laundry, warewashing, medical and healthcare, food plant, bottling, pharmaceutical and cosmetic industries.

We partner with growth oriented, leading distributors who can maximize the value added services and programs we offer. Our distributor focused "customer intimate" market approach and our commitment to innovation, quality and value are central to the success of our distributor's programs and their customer's satisfaction.

INTERCON SERVICE INCLUDE:

- Innovative Chemical Product, Package and Systems Development
- Liquid, Powder, Solid and Aerosol Product Lines
- Warehousing, Shipping and Logistics Support
- Technical Product/Application Training for Distributor "Management Interface" Programs
- Sales, Marketing and Field Service Assistance
- Contract Manufacturing Capabilities
